

# INTEGRATED CTMS: AUTOMATE PROCESSES & DELIVER POWERFUL EFFICIENCY GAINS

Today's stand-alone clinical trial management systems (CTMS) are now perceived as a relic. agClinical™ is the CTMS solution that integrates seamlessly with your other clinical and non-clinical systems – EDC, IWRS, Trial Disclosure, Regulatory, Safety, CRM, Financial, and Analytics – and offers the “must have” functionality needed to manage and speed complex clinical trials.

## Top Challenges of Clinical Trial Management

## Flexible Intergration

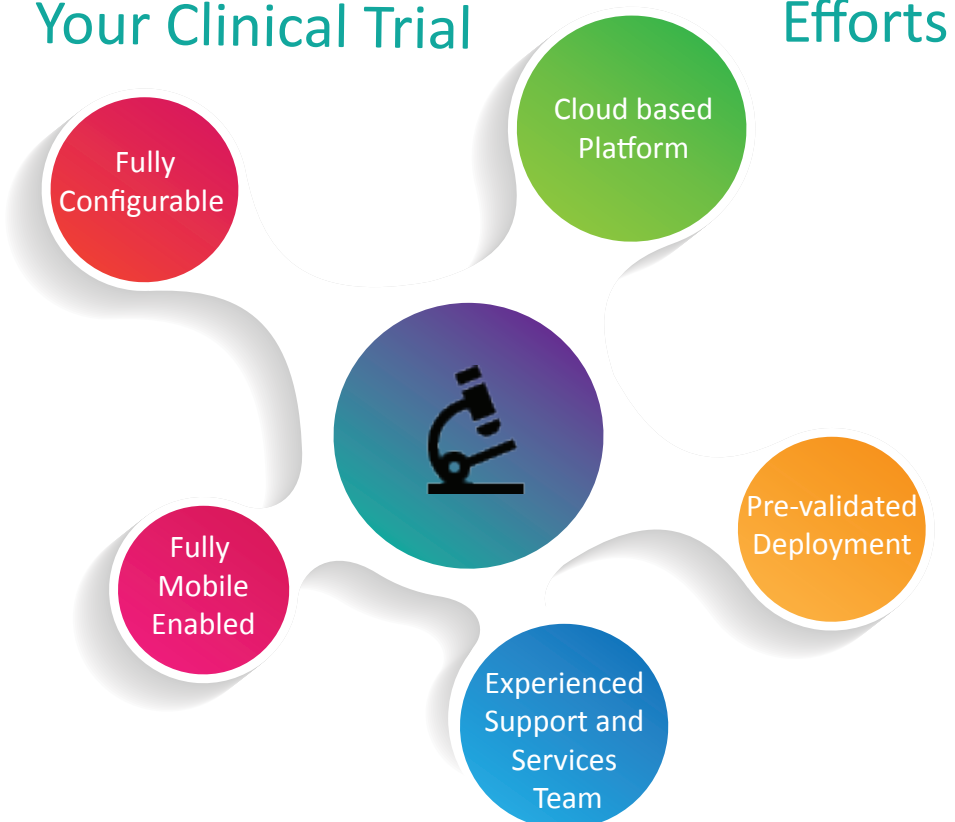

For complete automation and reduced redundant data entry, agClinical uses either pre-built connectors or standards-based Web services to quickly integrate with other corporate department systems.
