

LifeSphere® Medical Affairs

The Only Platform to Support all
Medical Information Functions in
a Single, Integrated Workspace

LifeSphere Medical Affairs

Enabling Consistent Information

LifeSphere Medical Affairs is the first and only unified, end-to-end medical affairs platform, offering improved information consistency and seamless data sharing, resulting in increased productivity and compliance. Multiple disciplines, including medical information, content management, product quality and pharmacovigilance, are supported in a single, mobile-enabled cloud platform, to streamline and automate business processes and enable collaboration across core departments.

Powered by Nava®

Industry-Leading Automation

ArisGlobal's proprietary cognitive engine, **Nava**, is woven into the fiber of LifeSphere, extending across our portfolio of solutions to automate repetitive manual tasks and assist human decision-making. Nava enables clients to reduce cycle times, improve quality and provide cost efficiencies.

Next-Generation Platform Empowers Medical Affairs Teams

LifeSphere Medical Affairs is designed to ensure compliance with international regulations and guidelines to enable you to succeed. While available as a complete, unified platform, each of its modules are best-in-class solutions that can also be implemented stand-alone and can be easily integrated with existing legacy systems using web services, APIs and adapters.

LifeSphere Medical Affairs Components:

- LifeSphere **Medical Information**
- LifeSphere **Mobile**
- LifeSphere **Product Complaints**

Create standard response documents and FAQs
- **Fulfill Inquiries**
Deliver accurate, updated content via all channels
- **Generate Key Reports, Metrics & Analytics**
Gain business intelligence and measure KPIs

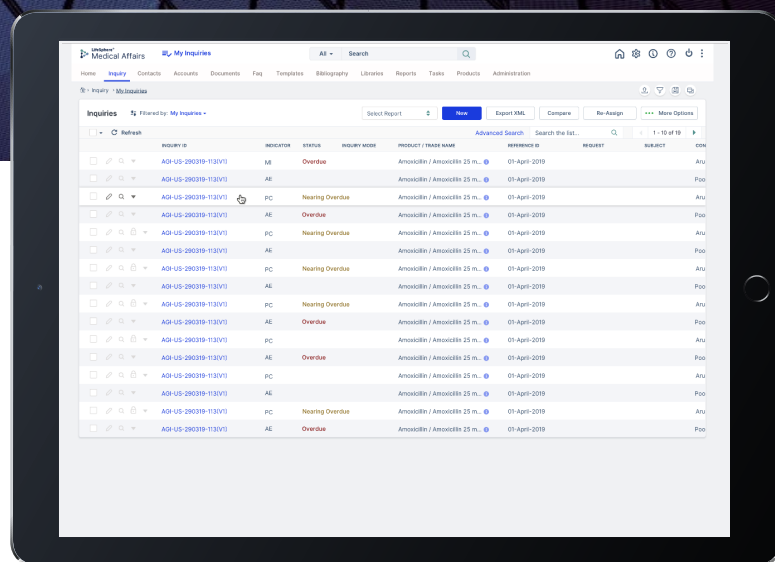

Delivering Seamless Unification With:

LifeSphere EasyDocs

Enterprise document management system offering a centralized repository and ensuring business process continuity across the drug development lifecycle.

LifeSphere Safety Platform

Offering seamless connectivity with LifeSphere Safety, our multi-tenant platform that uses cognitive computing to support global pharmacovigilance, clinical safety and benefit-risk management programs.

LifeSphere Product Complaints

A complete product complaint management system for managing the entire complaints lifecycle and delivering effective and timely resolutions to customer issues. Efficiently handle the triage and review of complaint cases, and perform robust investigation and root cause analysis.

LifeSphere Mobile

Allows for simple reporting of adverse events by all stakeholders and available as a web-based capture solution or mobile app.

About ArisGlobal

ArisGlobal is the visionary technology company that's transforming the way today's most successful Life Sciences companies develop breakthroughs and bring new products to market. Our end-to-end life sciences platform, LifeSphere®, integrates our proprietary Nava® cognitive computing engine to automate all core drug development functions. Designed with a long-term perspective that spans more than 30 years, LifeSphere® boosts efficiency, ensures compliance, delivers actionable insights, and lowers total cost of ownership through multi-tenant architecture.

Headquartered in the United States, ArisGlobal has regional offices in Europe, India, Japan and China.
