Next-generation platform for intelligent, automation-enhanced adverse event management

Automated Event Case Processing
A leading life sciences innovator for over 30 years, ArisGlobal is pioneering a new era of intelligent, automated adverse event case processing. LifeSphere Safety is a multi-tenant, cloud platform that leverages cognitive computing to support global pharmacovigilance, clinical safety and benefit-risk management programs.

Powered by Nava® Industry-Leading Automation
ArisGlobal’s proprietary cognitive engine, Nava, is woven into the fiber of LifeSphere, extending across our portfolio of solutions to automate repetitive manual tasks and assist human decision-making. Nava enables clients to reduce cycle times, improve quality and provide cost efficiencies.

LifeSphere MultiVigilance Modern, Assured Compliance
LifeSphere MultiVigilance is the foundation of our Safety platform. Built on AWS cloud architecture in coordination with the top global pharmaceutical and biotech manufacturers, LifeSphere MultiVigilance is a state of the art safety system that automates the receipt and processing of adverse event data.

LifeSphere MultiVigilance’s Native Automation Capabilities Enable:
- Automated Case Intake
- Automated Validity, Triage & Duplicate Check
- Automated Case Data Extraction
- Automated Follow-Up
- Automated Coding
- Intelligent Data Consistency Check
- Touchless Workflows
LifeSphere Safety Solutions
Unified, end-to-end safety solution with seamless integration from case receipt to benefit-risk evaluation. All LifeSphere Safety products provide full E2B (R3) support and comply with the latest regulations from the ICH, FDA, EMA, PMDA, and SDA, including all regional variations.

LifeSphere MultiVigilance
Multi-tenant cloud solution for safety and case management that delivers full E2B (R3) compliance in support of the pharmaceutical, biotech, medical device and cosmetic industries.

LifeSphere Intake and Triage
System-agnostic case triage tool for automating the receipt of adverse event data regardless of source.

LifeSphere Reporting and Analytics
Comprehensive safety analytics solution with out-of-the-box integration with all LifeSphere Safety products for safety data analysis.

LifeSphere Signal and Risk Management
Data analysis solution for handling the safety intelligence, signal management and risk mitigation processes of medicinal products.

LifeSphere Mobile
Allow for simple reporting of adverse events by all stakeholders and available as a web-based capture solution or mobile app.

LifeSphere EV Triage
Automates the triage process of segregating and reconciling applicable cases from other non-relevant cases.
